COIVER COIBENTAZIONI TERMOACUSTICHE

concept to reality ...

COMPANY OVERVIEW

COIVER COIBENTAZIONI TERMOACUSTICHE has been a leader for more than 40 years in the field of thermal & acoustic insulation, especially in the area of industrial and civil plants, either in new plants or in the ordinary & extraordinary maintenance of existing plants.

Over the years, thanks to long standing business relationships established by our management with prestigious national and international customers, we have been able to achieve significant annual revenues.

Our Clients have always involved our Company – either in the design phase (development designs for computing insulations to be produced, thermal calculations, material specifications) or in the area of simple products supply (including installation manuals for our products, where the installation is to be completed directly by our Client, using a local workforce), or in the supply and installation of our insulations systems, providing our technical expertise and vast experience - in the most important initiatives in the market.

COIVER COIBENTAZIONI TERMOACUSTICHE is a company which is part of the COIVER GROUP, a historic Italian group operating in the construction/industrial fields, which has a staff comprised of more than 150 partners/associates/employees, some of which are based at the Group's headquarters in Milan (Cormano) - where the offices and production facilities (over 4,000 sq. m) are located – and others which are based in Rome and in the Tunis offices (Tunisia).

The COIVER GROUP has, on average, more than 80 simultaneous worksites active in (in Italy and abroad) at which, in addition to the abovementioned staff, more than 700 people work daily, with a consolidated annual revenue of over 85 mln euro.

FIGURES

The COIVER COIBENTAZIONI TERMOACUSTICHE company share capital is equal to 500k euro with a net worth of more than 1mln euro and open bank credit lines worth more than 2 mln euro with the principle national banks such as: Intesa SanPaolo, Banca Nazionale del Lavoro (BNP Paribas Group), BPER Group and UBI Banca (whereby COIVER GROUP's net worth is more than 20 million euro).

REFINERY MOL DUHA - SZA'ZHALOMBATTA - HUNGARY - 2007/8

TURNOVER

2015 more than Euro 12 Mlns

2014 more than Euro 8 Mlns

2013 more than Euro 7 Mlns

MISSION

Our goal is to broaden both our market area (geographically expanding our business in foreign markets, with particular regard to emerging markets such as the Middle East, Africa, Asia etc.) and the range of our services with the acquisition of new skills and resources with the aim of presenting our company to national and international customers as a single point of reference for thermal & acoustic insulations (including special scaffoldings) and fire proofing compartmentation systems.

We strive daily to achieve the goals set by the market in terms of technical skills, compliance with performance schedules, and project budgets. Our Company has over time become synonymous with excellence in our sector thanks to a team of close-knit collaborators, the co-operation of selected suppliers and the support of banking institutions. Our Clients with sustained confidence continue to entrust us with new and ambitious projects that we bring to fruition thanks to our humility, tenacity and perseverance.

We are proud to have the strength of a medium-sized company while keeping the grit of a start up.

ENEL GREEN POWER - POWER PLANT - FINALE EMILIA (MO) - ITALY - 2015/16

MARKET AREAS

New developments and/or maintenance in the following areas:

INDUSTRIAL

Industries in the pharmaceutical, food, textile, chemical, petrochemical, cement, offshore, oil & gas, power generation sectors.

CIVIL

Hospitals, business centres, airports and railway infrastructures, subways, shopping malls, offices for services and multi-functional centres, hotels & resorts, as well as, residential buildings.

POWER STATION - A2A - MILANO - ITALY - 2014

CHEMICAL PLANT - IBP - CRESCENTINO (VC) - ITALY - 2014

PHARMACEUTICAL INDUSTRY - ORIGGIO (MI) - ITALY - 2007

CHEMICAL PLANT - IBP - CRESCENTINO (VC) - ITALY - 2013/14

HOSPITAL - ALBA-BRA (CN) - ITALY - 2015/16

ENEL GREEN POWER - POWER PLANT - FINALE E. (MO) ITALY - 2015/16

SERVICES & PRODUCTS

We provide technical solutions in line with current Italian and international regulations, using innovative and environmentally friendly materials. We carry out and manufacture, among others, the following types of services & products:

THERMAL & ACOUSTIC INSULATION

Supply and installation of all types of materials (rock wool/glass, elastomeric insulation, polyurethane, ceramic fiber, glass foam, phenolic resins, calcium silicate, technological nano materials, metallic finishes and otherwise) studied purposefully on the basis of technical needs, process needs, fire resistance, thermal and acoustic insulation Clients' needs.

SPECIAL SCAFFOLDING

Supply of materials (multidirectional) in accordance with applicable current regulations regarding scaffoldings.

FIRE PROOFING COMPARTMENTATION SYSTEMS

Supply and installation of all types of materials in accordance with current regulations on fire prevention.

OUR WORKSHOP (TECHNOLOGICAL EQUIPMENT)

All of the products we manufacture are produced and/or assembled in our manufacturing plant in Milan (Cormano) by highly professional and experienced staff under the supervision of our Head of Production respecting the highest quality assurances and ISO requirements. Thanks to the equipment including machines and technologies (e.g. punching multi-tool in a continuous loop from coils with interpolations axis, CNC bending machines, guillotine shears, work center for carpentry and welding, plasma pantograph, cutting line from coils for ribs, cutting line and calendering for pipes, pneumatic flanging machines, clip boxes, recently renovated) we are able to work with aluminium, stainless steel, galvanized steel and iron, manufacturing our products according to the needs, even customized, of our Clients and/or projects.

Punching machine with continuous feed from coil and axis interpolation

Cutter machine with rib tool

Weld and carpenter work-station

Bender and shears machine

Plasma pantograph cutter
